Explore 10 renewable energy projects in the Middle East, showcasing solar, wind, and battery storage advancements set for 2025. Read more [here](#).

In 2025, Petroleum Development Oman is expected to launch the 100 MW North Solar Storage PV plant, featuring the country's first lithium-ion battery system to ensure energy ...

The report includes scenario analyses for Saudi Arabia, UAE, Israel, and South Africa and a broader overview of trends across the rest of the MEA region.

Noor Energy 1 CSP spans 44 square kilometers, making it the largest in the Middle East. Its central tower generates 100 MW of power during the day and uses thermal ...

In November last year, ACWA Power and The Sovereign Fund of Egypt (TSFE) inked a memorandum of understanding (MoU). Together, they will invest in this 1,100 MW ...

Noor Energy 1 CSP spans 44 square kilometers, making it the largest in the Middle East. Its central tower generates 100 MW of ...

SolarPACES-NREL database: All plant details on the 100 MW Shams CSP project. Located in the Al Dhafra region of Abu Dhabi, Shams 1 was the largest renewable energy project in operation ...

Petroleum Development Oman launched procurement for the 100 MW North Solar Storage PV plant, featuring Oman's first lithium-ion BESS for extended energy transmission.

The Middle East is witnessing a robust transformation in its energy landscape, characterized by several significant energy storage initiatives aimed at enhancing ...

In 20+ years we have become the largest power & water developer in the GCC region, and a name to contend with internationally.

100MW energy storage power station in the Middle East
