The SIP Biel/Bienne, which is home to the Energy Storage Research Centre and other innovative companies, is the perfect partner for implementing research outcomes into practice.

The system adopts lithium iron phosphate battery technology, with grid-connected energy storage converter, intelligent control through energy management system (EMS).

What is a containerized energy storage system?The Containerized energy storage system refers to large lithium energy storage systems installed in sturdy, portable shipping containers, which ...

The Fiji side energy storage power station project isn't just about technology--it's about resilience. By integrating smart storage, Fiji can reduce diesel dependence, stabilize its grid, ...

This new solar plant is situated at the Mua Research Centre in the north of Taveuni, an international centre for palm and coconut research owned by ...

This mobile and modular solution includes batteries, inverter, HVAC, fire protection and auxiliary components, all tested and pre-assembled by Aggreko experts, and seamlessly operated by ...

This energy storage system includes key components such as battery pack, battery management system (BMS), energy storage converter (PCS), and ...

This energy storage system includes key components such as battery pack, battery management system (BMS), energy storage converter (PCS), and energy management system (EMS).

Fiji's power grid got knocked out like a rookie boxer. The new storage station includes black start capability - essentially a 'Ctrl+Alt+Delete' for the entire grid.

This new solar plant is situated at the Mua Research Centre in the north of Taveuni, an international centre for palm and coconut research owned by the Fijian Government and is ...
