North Macedonia, which has been attracting investments in battery factories, is in talks on a project worth up to EUR 360 million.

Next-generation battery management systems maintain optimal operating conditions with 45% less energy consumption, extending battery lifespan to 20+ years. Standardized plug-and-play ...

We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services..

Skopje's commercial sector is witnessing a 33% annual growth in energy storage adoption [1], driven by frequent grid instability and ambitious renewable energy targets. But ...

We specialize in advanced photovoltaic energy storage solutions, providing high-efficiency battery cabinets designed for reliable, sustainable, and clean energy.

In a recent landmark auction, the North Macedonian government received 44 bids for battery storage projects, totaling an impressive 4.2 GW of capacity. This ambitious move is ...

Upcoming legislation is set to introduce battery energy storage in North Macedonia alongside statistical transfers with other countries, energy communities and guarantees of origin.

The US-based Pomega Energy Storage Technologies, specialising in lithium iron phosphate battery production, will install a 62-megawatt (MW)/104-megawatt-hour (MWh) battery energy ...

As North Macedonia accelerates its renewable energy transition, advanced electrical energy storage systems are becoming critical for grid stability and solar/wind integration.
