Powered by lithium-ion batteries, this portable product is ready to supply reliable power in challenging situations. It can work in island mode, as a hybrid solution with a diesel generator, ...

This containerized system is designed for hybrid integration with existing grid, solar, or generator sources. It enables energy optimization while reducing ...

Equipped with automatic fire detection and alarm systems, the 20FT Container 250kW 860kWh Battery Energy Storage System is the ultimate choice for secure, scalable, and efficient energy ...

Freight Farms provides high-tech hydroponic container farms and expert support to help anyone grow fresh food anywhere--no experience required. A commercial-scale, modular, hydroponic ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

This system packages a 250kW Power Conversion System (PCS) with 750kWh of lithium-ion battery storage into a robust, portable container. The PCS controls the flow of electricity in and ...

Smart ESS 250/500 is an All-in-one, Containerized ESS designed for high density industry and public utilities. The system integrates Battery, BMS PCS, HVAC, fire ...

This containerized system is designed for hybrid integration with existing grid, solar, or generator sources. It enables energy optimization while reducing diesel dependence and ensuring round ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

These are complete PV solar power systems that can work for a home or business, with just about everything you need to get the system up and running quickly. The kit prices shown ...
