What is a containerized mobile substation?

Containerized mobile substations are sheltered and address applications in challenging environmental conditions including areas of high pollution, and humidity. Customers requiring shorter overall delivery times and minimal on-site work have been the main drivers for Hitachi Energy's development of pre-fabricated indoor substations.

What is a prefabricated substation?

Prefabricated substations with up to 420 kV : Siemens Energy provides a large range of prefabricated substations that are equally suited for either temporary or permanent use in challenging grid expansion- and maintenance programs or as emergency response.

What is a micro substation?

Siemens Energy provides customized Micro substations for remote areas, offering sustainable and environmentally friendly electricity solutions with virtually unlimited power availability. These substations are ideal for rural areas with high power demands.

What is a small distribution substation?

Smaller distribution substations are subdivided into container-sized modules, which can be manufactured, assembled and tested at the factory, allowing easy transport and fast installation and commissioning at site.
