What is a collapsible bulk container?

Collapsible bulk containers, also known as knockdown containers or knockdown bins, are space saving containers perfectly engineered for both durability and longevity. These foldable containers are made of high-density polyethylene (HDPE), a durable material that will protect your product throughout the duration of the container's life.

Why should you invest in a bulk collapsible container?

Eliminate redundant packaging and streamline your operations with a single product designed for both storage and shipping. Investing in our advanced bulk collapsible containers significantly reduces your total shipping costs by removing the need for additional, specialized infrastructure.

Are collapsible containers durable?

Yes, most collapsible containers are designed to be strong and durable to withstand the weight of the items stored inside. They are usually made from robust materials such as heavy-duty plastic or metal. However, the exact durability will depend on the specific product and manufacturer.

Where can I buy collapsible containers & pallet sets?

As a leading packaging solutions company, Green Processing Company is committed to stocking brand new products, including thousands of collapsible containers and pallet sets. The new products are in stock in Windsor, ON and Laredo, TX. We can work with you to make custom containers with the specification of your need.
