North Carolina-based renewables developer Strata Clean Energy secured a 20-year tolling agreement with Arizona Public Service (APS), the state's largest electric utility, for ...

The 150 MW / 600 MWh project is expected to be operational in April 2026, delivering four hours of battery capacity that can power roughly 24,000 homes. Once completed, Justice will play a ...

Located in Doña Ana County, New Mexico, Santa Teresa is a 150 megawatt (MWac) solar project that has a 600 megawatt-hour (MWh) battery energy storage system ...

North Carolina-based renewables developer Strata Clean Energy secured a 20-year tolling agreement with Arizona Public Service ...

The Justice project will play a crucial role in storing surplus renewable energy generated during the day and releasing it during the peak evening demand, which is ...

The 150 MW / 600 MWh project is expected to be operational in April 2026, delivering four hours of battery capacity that can power roughly 24,000 homes.

The 60 MW/600 MWh storage project is co-located with a 250 MW photovoltaic plant allowing for a high level of green energy self sufficiency.

The 150 MW / 600 MWh project is expected to be operational in April 2026, delivering four hours of battery capacity that can power roughly 24,000 ...

Strata Clean Energy has officially launched construction on its highly anticipated Justice Energy Storage facility in Maricopa County, Arizona -- a milestone that further positions the state as a ...

The Justice Energy Storage Project represents Strata Clean Energy's commitment to fostering a resilient and decarbonized energy ...
