From our workshop and warehouse in Haarlem, we offer complete solar and wind systems for grid connected solar projects, off-grid applications, micro ...

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...

The off-grid version consists of a Solarfold container which, in conjunction with a suitable additional storage container, is not connected to the public power grid and functions ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV ...

The off-grid version consists of a Solarfold container which, in conjunction with a suitable additional storage container, is not connected to the public ...

Standardized plug-and-play designs have reduced installation costs from \$80/kWh to \$45/kWh since 2023. Smart integration features now allow multiple containers to operate as coordinated ...

From our workshop and warehouse in Haarlem, we offer complete solar and wind systems for grid connected solar projects, off-grid applications, micro-grids, hybrid power, and project-based ...

In Netherlands, an increasing number of households, industrial and commercial enterprises are adopting solar or backup power solutions. With its factory-direct pricing, high efficiency, long ...

The program focuses on three key areas: high-efficiency silicon "heterojunction"; solar cells, flexible solar foils based on the novel material perovskite, and tailor-made, lightweight solar ...
