QUAD series includes QUAD BLACK for All Black Shingled Modules, QUAD PRO for 500-600W Modules and QUAD ULTRA for 585-610W Modules. We normally use cartons ...

This high efficiency full black shingled solar modules are designed for home use & various business applications, and can withstand various severe environmental conditions.

Shingled components are more resistant to hot spot effects. The "hot spot effect" of photovoltaic modules is one of the most important factors affecting the power generation of the modules.

Ensured by over 15 years of experience in module manufacturing, the ...

Departing from the traditional uniformity, these panels feature overlapping solar cells akin to a puzzle arrangement, optimizing space utilization on the module surface.

Its all-black design provides a sleek and modern aesthetic. Comprehensive Warranty: Backed by a 5-year warranty, this solar energy system offers peace of mind for users, ensuring that their ...

Ensured by over 15 years of experience in module manufacturing, the CS1H-340MS-BLK BoB solar panel features a well-engineered module design, stringent BOM quality testing, an ...

This high efficiency full black shingled solar modules are designed for home use & various business applications, and can withstand various severe ...

All Black solar modules are specially designed photovoltaic modules that are characterized by their elegant, uniform black appearance. They offer the same efficiency as standard modules, ...

This kind of solar panel offers flexibility in their light capturing abilities. They can utilize either crystalline silicon solar cells, known for their high efficiency, or thin-film technologies like ...
