Do wind and solar projects need federal permits?

While only a relatively small fraction of wind and solar projects is built on federal lands and waters managed by the Interior Department, many projects on private lands often consult with the agency to determine whether they need federal permits to comply with wildlife protections or other laws.

Do you need zoning approval for a wind project?

Securing necessary permits and zoning approval is an essential step for all energy projects. The processes and information required for permitting wind projects vary across applications and geographic areas. Understand Permitting and Zoning.

Will the Interior Department approve new wind and solar power plants?

The Interior Department said in a memo that a wide range of agency actions related to approving new wind and solar power plants would now have to be reviewed by the office of Interior Secretary Doug Burgum, instead of by lower-level agency staff.

What are wind energy ordinances?

Ordinances regulate aspects of wind projects such as their location, permitting process, and construction and provide clarity to wind developers and the public. WINDEXchange compiled this database of wind energy ordinances from around the country. Wind Energy and Eagles: The Problem, the Permit, and the Path Forward: A WINDEXchange Webinar.
