Who makes solar panels in Armenia?

Solaron is the first manufacturer of solar panels in Armenia, which annual production capacity reaches about 60 megawatts. Brand "Solaron" is a registered trademark for products manufactured by Profpanel. In Solaron Company merged a team of highly qualified professionals with many years of experience in the business organization from scratch.

Why do Armenians use solar energy?

The reason for this is that average solar radiation in Armenia is almost 1700 kWh/m<sup>2</sup> annually. One of the well-known utilization examples is the American University of Armenia (AUA) which uses it not only for electricity generation, but also for water heating. The Government of Armenia is promoting utilization of solar energy.

How much solar energy does Armenia produce a year?

According to the Ministry of Energy Infrastructures and Natural Resources of Armenia, Armenia has an average of about 1720 kilowatt hour (kWh) solar energy flow per square meter of horizontal surface annually and has a potential of 1000 MW power production.

Where is Solaron available in Armenia?

Solaron's services are available throughout all regions of Armenia. Solaron is the first manufacturer of solar panels in Armenia, which annual production capacity reaches about 60 megawatts. Brand "Solaron" is a registered trademark for products manufactured by Profpanel.

There are plenty of solar panel and equipment manufacturers in Armenia, providing a variety of options for consumers and businesses looking to switch to solar power.

Founded in 2018, "Volta" has specialized in the field of solar energy and quickly gained the trust of customers and partners. We are now the official representative of Huawei, one of the world's ...

Armenia's area cannot be considered as homogeneous from the perspective of available solar energy: the difference between the amount of solar energy reaching the ground in different ...

Our specialists have more than 10 years of experience in the field and know all the subtleties of designing and installing solar systems. We have implemented more than 500 projects both in ...

Solar photovoltaic installation company SOLARA has adopted a strategy to carry out activities in the field of the green economy in Armenia and promote its development.

SolArm offers a variety of solutions in the field of solar energy (on-grid, off-grid, hybrid, microinverter systems, solar pumps, solar LED lights) The goal of the company is to develop ...

Considering a solar manufacturing plant in Armenia? Our guide assesses Armenia's infrastructure, including logistics, energy grids, and industrial zones, for your venture.

Solar photovoltaic installation company SOLARA has adopted a strategy to carry out activities in the field of the green economy in Armenia and ...

Consulting in the field of solar energy, engineering and design of solar energy systems and other services. Design and construction of solar power plants, energy audit. Installation and ...

To ensure the production of high-quality solar panels, the company has invested in a modern and innovative production line from the renowned Italian company Ecoprogetti. This production line ...
