How much does a solar garden light cost?

Today, the company sells a wide range of lighting systems, starting at \$50 for affordable units and going up to \$500 for premium units. Recently, Volt Lighting has heavily invested in solar lighting systems. The company has a wide selection of solar garden lights with integrated solar panels and a sturdy brass construction.

Should you install a self-contained outdoor solar lighting system?

Rather than going through the expense and hassle of trenching electric wires, you can install a self-contained outdoor solar lighting system. In addition to initial installation cost savings, solar energy systems are a lighting solution that do not require a monthly electric or meter bill, and require little to no regular maintenance.
