Who is ATESS Power Technology?

Shenzhen ATESS Power Technology is a leading energy solution provider focusing on design and manufacturing of PV hybrid inverter, battery inverter, storage solution, and EV charging stations for various applications.

Where is the factory located that uses ATESS inverters?

In the small town of Wassenberg on the German border, a factory is utilizing a continuous supply of clean electricity to empower its production and work. The ATESS American standard hybrid inverters HPS50/100/150-US have recently passed the CSA Certification for North American market.

What is an ATESS bidirectional battery inverter?

The ATESS bidirectional battery inverter, also known as the power conversion system (PCS), is the core energy management and conversion unit of large-scale energy storage systems.

Where is ATESS based?

Based in Shenzhen, China, ATESS has a sophisticated and automated manufacturing plant. An international service network with offices and warehouses has been built in 5 continents to ensure fast shipping and after-sale service. Our product The ATESS solutions include all-in-one hybrid inverters, battery inverters and lithium battery solutions.

Explore ATESS's high-efficiency hybrid inverters and all-in-one energy storage systems that integrate PV inverters, charge controllers and batteries for seamless solar power conversion ...

Expert in solar energy storage, ATESS offers energy storage solutions & EV charger solutions and delivers clean power to more than 85 countries, ...

Factory: For factories with higher energy consumption, the 50kw hybrid inverter and 40kw hybrid inverter can significantly lower operational costs ...

Factory: For factories with higher energy consumption, the 50kw hybrid inverter and 40kw hybrid inverter can significantly lower operational costs and ensure production continuity during grid ...

Our 30/50/100/120/150kW hybrid inverters are available in battery, load, grid and solar connection, which support small and medium commercial and industrial applications.

ATESS is a new entrant into the Australian clean energy market. Based in Shenzhen, China, which is known as the Silicon Valley ...

Business District: The 30kw hybrid solar inverter is perfect for small to medium businesses, such as hotels and retail stores, reducing peak demand charges and providing backup power.

ATESS is a new entrant into the Australian clean energy market. Based in Shenzhen, China, which is known as the Silicon Valley of hardware, ATESS has developed a ...

Explore ATESS's high-efficiency hybrid inverters and all-in-one energy ...

At ATESS, our HPS5000TLS, HPS7500TLS, and HPS10000TLS inverters provide an effective all-in-one solution, combining advanced features with a compact design. By ...
