What is a sunstyle roof / BIPV?

SunStyle is a Building-Integrated Photovoltaic roof/BIPV. Installed with a single set of building materials, the structural roof and energy generating modules are one. At SunStyle, we believe in solar energy without compromising beauty.

What is sunstyle solar roofing?

Just as it complements modern architecture, SunStyle honors historic and traditional structures - bringing the future to the past with a fully integrated solar solution. SunStyle maximizes the potential of solar roofing from edge to edge, encompassing every angle and slope.

Can Solarstone® be installed on a sloped roof?

Solarstone® solar modules can be installed on all types of sloped roofs with a minimum angle of 18 degrees. This is necessary to ensure water-tightness of the installation. Solarstone® says goodbye to costly mounting systems.

Are Solarstone® BIPV panels a good choice?

Solarstone® BIPV panels are a good choice for harnessing solar energy as they are designed to give you clean energy and protection for decades. The panels function as permanent roofing material and come with a 25-year Production Warranty, reducing concerns about energy bills and price fluctuations.

The IntegraRack IR-T1 TileBallast(TM) Solar Module Roof Mount eliminates the need for tile removal or roof penetration, making installation up to 4x ...

IntegraRack specializes in ballasted solar panel racking solutions with sun angle options from 5 degrees all the way up to 45 degrees. IntegraRack products are extremely fast, high quality, ...
