When should you replace UPS batteries?

There are a few signs to look out for when determining when to replace UPS batteries. These include reduced runtime, frequent battery failures, increased heat generation, swelling or leakage of batteries, and the age of the batteries (typically beyond 3-5 years). What are some leading brands of UPS batteries?

How long do UPS batteries last?

Despite their importance, UPS batteries are not designed to last indefinitely. Hours of taxing functionality, frequent power outages, and environmental temperature play a critical role in this asset's lifespan. Leading UPS manufacturers and tech gurus recommend replacing your UPS battery every 2-3 years.

How do I report a battery problem in New York?

Call 311 or 212-NEW-YORK (212-639-9675) to report the problem. It is illegal to put rechargeable batteries in your trash or recycling. This includes batteries from laptops, cell phones, and digital cameras. Batteries can catch fire and even explode. Improper disposal can lead to serious property damage, injury, and even death.

How do I report lithium ion batteries?

You can report improper storage, charging, or disposal of lithium-ion batteries. Your report will be referred to the appropriate Fire Prevention Unit. FDNY will review the report and possibly inspect the location by the next business day. You will get a response within 12 hours of submitting your report.

Resources Report Improper Storage, Charging Or Disposal Battery Recycling Interagency E-Micromobility Initiatives You can report improper storage, charging, or disposal of lithium-ion batteries.
