Is solar energy a building block for Berlin's climate protection strategy?

The expansion of solar energy use is emphasised as a particularly important building block in Berlin's climate protection strategy, since, with over 560,000 buildings in Berlin, there are rooftops and house facades aplenty, unlike suitable wind power sites.

What is solarzentrum Berlin?

To start tapping more into the potential of solar energy, both in the private and the public sector, the SolarZentrum (solar centre) Berlin was opened in May 2019. It is a component of the "Masterplan Solarcity", which works as an independent advisory centre on the topic of solar energy (SolarZentrum Berlin, only in German).

What is the Berlin solar ordinance?

Bundesamt für Wirtschaft und Ausführungskontrolle (BAFA) - Federal Government Daniel O'Reilly From the 1st of January 2023, the Berlin Solar Ordinance mandates the installation of rooftop solar panels on all non-public construction projects in Berlin.

Are solar panels mandatory in Berlin?

The set of measures stipulated in the master plan is accompanied by the Berlin solar law. Solar panels have been mandatory since January 1, 2023. The installation and operation of photovoltaic systems have been mandatory since then for new and existing buildings under certain conditions (SenK 2021).

Discover how ESMT Berlin is leading the way in sustainable energy with its impressive photovoltaic system, covering 25% of its electricity needs.
