Why do we need an uninterruptible power supply (UPS) system?

In data centres, traffic control centres, on sensitive production lines and in many other fields, systems for the uninterruptible power supply (UPS systems) save lives and secure data, avoid costs, ensure order, protect infrastructures, and prevent situations arising that can threaten livelihoods.

What is a static uninterruptible power supply (UPS)?

Our static uninterruptible power supply (UPS) systems comply with the VFI-SS-11 classification according to IEC 62040-3. With their robust industrial design, they support a secure consumer supply in continuous operation.

What is a Gustav Klein UPS system?

Gustav Klein UPS systems are equipped with a colour touch screen display and consist of the components: Supports consumption-optimized networks (input THDi  $\leq$  6%, hardly any reactive power consumption, battery test by means of mains regeneration and full UPS power).

How to choose the right uninterruptible power supply?

As a result, the demands made on uninterruptible power supplies are high. When choosing the right uninterruptible power supply, particular attention should therefore be paid to longevity, energy efficiency and reliability.

With their robust industrial design, they support a secure consumer supply in continuous operation. In times of energy transition, our UPS systems protect against system failures ...

We've set ourselves up as an independent company with the primary aim of serving our customers even better than before. For a more immediate presence, for greater flexibility, for ...

Now it is the turn of our UPS systems, with their reliable and long-lasting energy storage solutions for AC and DC networks. Numerous sizes and performance classes offer flexible configuration ...

With their robust industrial design, they support a secure consumer supply in continuous operation. In times of energy transition, our UPS systems ...

We guarantee second life for batteries, provide security with uninterruptible power supplies (UPS) if the

power is suddenly gone in the event of a malfunction, and easily bridge interruptions of ...

Whether you need a passive UPS system, a UPS system in active synchronised operation or a double conversion system - NTC is your specialist for any uninterruptible power supply. NTC ...

Akkutronik is a medium-sized company and a specialist in uninterruptible power supplies. We also offer a comprehensive range of products in the field of UPS systems and batteries.

J. Schneider Elektrotechnik GmbH specializes in safe and constant power supply solutions, offering products such as transformers and uninterruptible power supplies, making it highly ...

Whatever is important to you as regards switch mode power supplies, we'll always provide you with the best advice. We'll support you with our comprehensive service levels and ensure that ...

Whatever is important to you as regards switch mode power supplies, we'll always provide you with the best advice. We'll support you with our ...
