The brand new self-sustainable Containerized Solar PV Solution by Statcon Energiaa provides a ready-made alternative for the common problem of power supply to remote and far-flung areas.

Chile has reached fresh milestones in its energy transition amid a rapid build-out of solar and battery storage infrastructure. The context: The South American nation's brisk shift ...

Summary: This article explores the critical role of uninterruptible power supply (UPS) systems in Valparaiso, Chile. Discover industry applications, local energy challenges, and how modern ...

A prime driver, is increasing adoption of renewable energy, since hybrid UPS devices are being constructed to seamlessly fit into solar and wind energy ...

Priority funding is directed toward integrated solar-plus-storage demonstration projects in the Atacama Desert, aiming to accelerate the energy transition in northern Chile. The Atacama ...

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Technological advancements are dramatically improving ...

A prime driver, is increasing adoption of renewable energy, since hybrid UPS devices are being constructed to seamlessly fit into solar and wind energy options, providing long-term ...

One aspect of the development of Chile's BESS market this year that seems to have taken Silva by surprise is that he expected the ...

The project is located in Maria Elena municipality, in the Antofagasta region in Chile. It is expected to be one of the country's ...

Expansion of solar power and energy storage capacity can support Chile's energy transition for a sustainable energy future. This ...
