---

The company expects to reach 2 GWh of battery supply and between 800 and 1,000 MW of photovoltaic modules delivered in Chile over the course of the year, driven by ...

NEW YORK (December 23, 2025): A subsidiary of Glenfarne Group, LLC ("Glenfarne") today announced the completion of a previously announced acquisition of four energy projects in ...

Discover how METLEN Energy & Metals is driving Chile's renewable future with large-scale solar power and energy storage projects.

Atlas recently closed \$510 million in financing for its Estepa project in Chile, a hybrid system with an installed solar capacity of 215 MW and two battery energy storage systems.

Once fully operational, this portfolio will generate about 1,300 GWh annually, positioning ContourGlobal as a key renewable operator in Chile, a country where the company ...

Grenergy has raised financing for the fourth phase of a solar-plus-storage project in Chile set to feature 11GWh of battery storage capacity when completed.

In a global landscape where, according to the International Energy Agency, battery storage reached 70 GW in 2024, Chile stands out as a frontrunner in the development of long ...

Three utility scale battery energy storage projects co-located with solar plants were announced last week in Chile. Enel is building a 67 MW/134 MWh battery, while CJR ...

Located in the Atacama Desert in northern Chile, this megaproject will have a total capacity of 2 GW of photovoltaic generation and 11 GWh of lithium-ion battery storage, ...

Upon closing of the transaction, Glenfarne's operational and in-construction power assets, including the assets of EnfraGen, will total over 3.1 GW of capacity and 1.61 GWh of battery ...
