CATL flooded the domestic market with inexpensive, efficient batteries. It wants to do the same overseas, but European politicians--and Donald Trump--stand in its way.

Global battery cell oversupply driven largely by China and is set to continue China lithium-ion battery cell production capacity overlayed by global lithium-ion battery demand

The report explores trends and forecasts across residential, commercial & industrial (C& I), and utility-scale battery segments, offering deep insights into Europe's energy storage ...

China's Sinopec and Denmark's Everfuel recently unveiled a hydrogen storage system that can power a mid-sized city for 72 hours using nothing but seawater and surplus ...

China has made a groundbreaking move in the energy sector by putting its first large-scale Sodium-ion Battery energy storage station into operation in Guangxi, southwest ...

With insights from Europe's most active storage markets, it equips attendees with practical guidance to run resilient, profitable battery portfolios as the sector scales.

As China's inaugural hybrid grid-forming energy storage project, it combines 10MW/20MWh lithium-ion batteries, 1MW/5min supercapacitors, and 200kW/400kWh sodium ...

With insights from Europe's most active storage markets, it equips attendees with practical guidance to run resilient, profitable battery ...

Solar and storage industry leaders from China and Europe gathered in Germany this week to advance cross-border partnerships, launch a bilateral storage collaboration ...

The China energy storage market size surpassed USD 93.9 billion in 2022 and is set to depict 18.9% CAGR during 2023 to 2032 led by the incorporation of renewable energy by ...
