This guide covers three methods: using an interlocking device, an outside weatherproof outlet box, and an extension cord ...

Step 1: Find Cable Path Step 2: Install Box Step 3: Run Pipe Step 4: Connect Wires Step 5: Install A Cover More Outdoor Power Methods

Find the easiest path for cable to reach an outside wall, perhaps through a basement or crawlspace. Use a long drill bit to drill a locator hole. If the location is inconvenient or does not satisfy code, install an LB fitting rather than a receptacle to run power elsewhere. See more on bhg #slideexp4_F84382
