Why do we need a storage site in Sweden?

Our commitment to Sweden's ambition of utilizing its renewable energy potential is at the core of our new site in Sweden, now one of the largest storage projects in Scandinavia. Clean energy requires a stable and flexible grid, which is why storage capacity plays a crucial role in the decarbonization and energy resilience.

What is Battery Centre Gothenburg?

It will be 100 percent powered by fossil-free energy and the aim is to supply batteries for approximately half a million electric cars per year. Nearby at Lindholmen, Battery Centre Gothenburg will open on 24 January. There, both industrial personnel and students will be trained and educated in battery technology and production.

Is Res ready to build a 70mw/160mwh battery energy storage system?

Gothenburg, 27 February 2025 - RES, the world's largest independent renewable energy company, has successfully completed the sale of a fully ready-to-build 70MW/160MWh battery energy storage system (BESS) project in Sweden.

What's going on in Gothenburg?

Gothenburg is a hub for innovation and at the forefront of sustainable industry. Now a battery cluster is taking shape, characterised by something that has served the region well: collaboration. Near Volvo Car's production plant and new battery assembly factory in Torslunda, a gigafactory is under construction.

As the world races toward decarbonization, Sweden's new energy storage technology is turning heads globally, blending Nordic pragmatism with breakthroughs that ...

SunContainer Innovations - Summary: Gothenburg's innovative energy storage initiative is redefining grid stability while supporting Sweden's 2045 carbon neutrality goals.

Summary: Discover how Gothenburg's innovative gravity energy storage project is reshaping renewable energy integration. This article explores its technology, environmental benefits, and ...

Summary: Explore how tailored energy storage cabinets address industrial needs in Gothenburg, Sweden. Discover trends, case studies, and why customization matters for sustainable ...

Gothenburg, 27 February 2025 - RES, the world's largest independent renewable energy company, has successfully completed the sale of a fully ready-to-build 70MW/160MWh battery ...

In this article, we review the literature on the planning, development, and evaluation of energy systems in sustainability-profiled districts in Sweden, developed over the past 30 years.

On July 1, 2025, the Port of Gothenburg, Sweden, finalized new agreements with Inter Terminals Sweden, a leading Scandinavian provider of bulk liquid storage, to support its transformation ...

Discover how collaboration is fueling Gothenburg's thriving battery cluster, including advancements in hydrogen fuel cell tech and ...

Gothenburg is leading Scandinavia's clean energy transition with a groundbreaking battery storage initiative. This article explores the companies driving this project, its technological ...

Discover how collaboration is fueling Gothenburg's thriving battery cluster, including advancements in hydrogen fuel cell tech and sustainable transport solutions.
