Whether on offshore platforms, for fracking trucks, mobile drilling rigs, or FPSO units, our container solutions are designed for optimal use under demanding conditions.

Our mobile gas station is a sophisticated integration of oil storage tanks and refueling units, meticulously designed to fit seamlessly into a standard 20- or 40-foot container configuration, ...

They can quickly be erected for instant operational use and disassembled compactly for transportation and storage. How it works. The tank fabric is constructed from durable black ...

slight corrosion on the contacts (usually for a laptop) and other issues. Your CD drive or DVD drive is missing or is not recognized by Windows or other programs

The mobile container laboratory designed specifically for oil research has become a &quot;mobile weapon&quot; for industry scientific research and innovation with its highly integrated ...

TLS modular containers can be fully customized to fit diverse project requirements -- whether for offshore office cabins, energy storage systems, mobile laboratories, or remote ...

Discover how innovative oil containers are transforming oil storage with advanced design, eco-friendly materials, and smart technology. Learn about the evolution, benefits, and ...

Custom crude oil storage solutions that incorporate corrosion-resistant epoxy tanks and high-efficiency floating roof systems are versatile and applicable across a broad range of ...

Built on a standardized structure, they can be customized to meet different needs--from precise lab environments to high-level electrical control rooms, and even safe ...

Key types include Cargo Carrying Units (CCUs), reefer containers, workshop units, accommodation containers, and hazardous goods storage. Built for resilience, they feature ...
