What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

Are Jenbacher containers available for gas engines?

Jenbacher containers are available for Type 2,3,4 and 6 gas engines. Our containerized solutions ensure excellent reliability for your power and heat generation needs.

How many generators can be used in a container genset?

The container gensets can be powered by engines of following manufacturers: The container built-in control panels are based on the intended use, e.g. manual/stand alone operation, emergency/standby or parallel operation. In parallel mode (GenSet-GenSet), up to 32 generators can be used as 'Power-Plant'.

Container type Diesel Generator Set Gencircle supply container type generator set is design in accordance with ISO/TC104 standard size, rational construction, to make sure the generator ...

Container power generators are available with a rated capacity of 30 kVA to 3000 kVA. Depending on the asked performance and execution, the generators are mounted in ...

We're talking about an all-in-one unit that combines a generator with an ISO container, which simplifies transport and installation. You can easily move it around or even stack it up like any ...

We specialise in offering high-quality bespoke containerised generators from 110kW to 3.5MW for Diesel, LPG, CHP, and NG Gas application

These systems integrate a high-performance generator within a specially designed container, providing a complete power generation solution that can be easily transported and deployed.

Our line of containerized generators is easily configurable to the needs of any application, from rental to disaster relief to mining -- with a whole host of ...

Our Container Diesel Generator is an independent power solution housed within a standard shipping container. Designed for backup power, remote ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades ...

A recent project in Sub-Saharan Africa demonstrates the potential: A 40-foot container equipped with 72 solar panels now provides 24/7 power to a medical clinic, replacing diesel generators ...

Our Container Diesel Generator is an independent power solution housed within a standard shipping container. Designed for backup power, remote locations, and construction sites, it ...
