What type of irrigation equipment do I Need?

Whether you're looking for towable irrigation reels, hosing, aluminum irrigation piping, hydraulic spray guns, motors, nozzles, or other irrigation equipment, TractorHouse.com has what you need with more equipment being added all the time. Primary types of irrigation include surface, sprinkler, and micro-irrigation (or subsurface).

What is a micro irrigation system?

Micro-irrigation systems, also called "localized" or "trickle irrigation," include low-pressure micro-sprinkler, drip, and subsurface drip systems. Such systems typically provide very precise control of water placement. The earliest form of irrigation is believed to have begun between 6000 BC and 5000 BC in the Middle East.

How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

What is a 20 & 40 ft shipping container?

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank. Fully customizable to your exact needs. The durable container design is completely waterproof, protects you and your equipment from the elements and any potential security threats.

Buy 150Gal Foldable Water Storage Bladder, Portable Large Capacity Container Tank for Agricultural Irrigation, Camping, Firefighting, Outdoor Household Water at Walmart

Order irrigation generators for pivot power from Powerhouse Diesel Generators. Find an durable and efficient irrigation power unit, designed for robust agricultural use.
