The rapid growth of hyperscale data center facilities has created a shortage of available power, resulting in interconnection queues that can stretch to ...

We provide walk-in/non-walk-in energy storage containers, liquid cooling cabinets, marine energy storage containers and various non-standard energy storage products. Meet the requirements ...

Learn how to design and build earthquake-resistant data centers to ensure reliable operations and data protection during seismic events.

Learn how DUG, Hypertec, and Solidigm collaborated on a mobile data center for deployments at the edge in the harshest of ...

Backup generators, fuel supplies, and battery arrays should be housed in earthquake-resistant enclosures. Redundant systems must be physically separated to avoid ...

If operators have the funds to make their data center earthquake-resistant, they should take the opportunity. Redundancy, ...

We provide walk-in/non-walk-in energy storage containers, liquid cooling cabinets, marine energy storage containers and various non-standard energy storage products. Meet ...

If operators have the funds to make their data center earthquake-resistant, they should take the opportunity. Redundancy, physical protection systems and regulatory ...

It's all well and good making sure you include base isolation systems, state-of-the-art dampers, and that no heavy pipes are ...
