By integrating state-of-the-art renewable technologies with energy storage solutions, this landmark project exemplifies the UAE's commitment to scaling innovative clean energy ...

Dubai's DEWA and Noor Energy 1 set a world record with a 5,907 MWh thermal energy storage plant on June 25, 2023. Using CSP technology with molten salt, this system enables 24/7 ...

The plant will support the Dubai Clean Energy strategy 2050 to increase the share of clean energy at Dubai to 25% by 2030 and will allow a saving of 1.6 Million tons of CO₂, in ...

Dewa is implementing a pumped-storage hydroelectric power plant in Hatta. The hydroelectric power station will utilise water from the Hatta Dam and a newly-constructed upper reservoir in...

The Mohammed Bin Rashid Al Maktoum Solar Thermal Power Plant - Thermal Energy Storage System is a 100,000kW concrete thermal storage energy storage project ...

Dubai's new CSP plant is designed to collect heat from the sun and store it in molten salt or convert it directly into electricity via a steam generator set - an ideal solution for ...

In addition to our energy storage projects that are completed or in progress, we plan on establishing a wide-range energy storage system using electric batteries that are supplied ...

The CSP project by DEWA broke records from its very beginning, with ACWA Power's then-record-low priced PPA at just 7 cents per kWh, and now with the most thermal ...

Shanghai Electric has built a "Photovoltaic + Energy Storage" microgrid demonstration power station under intelligent and integrated control, on the site of the CSP-PV project Phase IV in ...

World's largest single-site solar park. Phases I-III operational. Phase IV and V under construction. Phase VI (1,800 MW) achieved financial close in February 2024, expected completion 2026. ...
