Who makes Bryant Breakers?

For electricians dealing with obsolete Bryant breakers, understanding this direct lineage to Eaton is the key to a safe and professional installation. The Bryant Electric Company was a major manufacturer of electrical devices, including panelboards and circuit breakers, for much of the 20th century.

What is a Bryant BR breaker?

Most Bryant panels were designed for Bryant Type BR breakers. These breakers have a distinct 1-inch per pole circuit breaker form factor and a specific clip or bus stab design that is critical for a secure connection to the panel's bus bar. The modern Eaton BR series is physically and electrically identical to the original Bryant Type BR design.
