Georgia Power has requested state energy regulators to approve nearly 10,000 megawatts of new energy resources, including a mix of gas turbines, solar, and battery ...

From coal plant conversions to solar co-location, Georgia Power's battery strategy highlights the evolving role of storage in utility-scale energy planning.

Georgia Power is enhancing grid reliability and sustainability through Battery Energy Storage Systems (BESS), supporting clean, safe, and affordable energy for 2.8 million ...

Georgia Power recently announced that construction is underway for four new battery energy storage systems in strategic counties across the state to support energy ...

This article highlights Georgia's blueprint for grid-scale energy storage, demonstrating how targeted planning, infrastructure optimization, and domestic manufacturing ...

Two facilities will be built near Air Force bases, one at a retired coal plant, and another will expand an existing facility. The projects were approved by the Public Service ...

Georgia is on track to deploy more than 1GW/4GWh of utility-scale storage by 2027, outpacing every other Southeastern state. Driven by economic growth and evolving grid ...

Yes, Georgia has set specific targets for energy storage deployment through the Georgia Energy Storage Initiative (GESI). The state aims to deploy 1,200 megawatts (MW) of energy storage ...

ATLANTA, May 7, 2025 / PRNewswire / -- Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) ...

The Center of Innovation assists businesses focused on energy storage in two primary ways. We work closely with Georgia's universities to identify cutting-edge research regarding energy ...
