Guatemala is undergoing a transformative shift in its energy sector, leveraging technological advancements and renewable resources to meet growing demand and drive economic ...

Solar and wind power barely set spot prices in Guatemala over the past year, yet their influence on dispatch is growing rapidly. As battery energy storage advances, renewables ...

70MW battery storage project being developed by Ingrid Capacity, set to be the largest in the country when online in H1 2024. Image: Ingrid Capacity. Some 100-200MW of grid-scale ...

In particular, the current operational large scale battery energy storage systems around the world with their applications were identified and a comparison between the different types of ...

On September 8, 2024, the GSL ENERGY 60kwh wall-mounted battery home energy storage system was successfully deployed ...

This article explores how new energy storage projects are transforming the country's renewable energy landscape, addressing power reliability challenges, and creating opportunities for ...

Welcome to Guatemala's energy paradox - and its billion-dollar opportunity. As global players scramble for energy storage contracts, Guatemala's unique position as a renewable energy ...

On September 8, 2024, the GSL ENERGY 60kwh wall-mounted battery home energy storage system was successfully deployed in Guatemala, bringing new changes to the ...

The IDB has approved a \$250 million loan to increase electricity coverage in rural Guatemala. A planned program will include the development of renewables-plus-storage ...

Guatemala's energy matrix presents unique challenges: 72% of electricity comes from renewables (mostly hydro) - impressive, but... Enter energy storage batteries - the ...
