Will there be a 5G commercial announcement in Liechtenstein?

However, despite the changes in the telecom structures and other 5G developments by Swisscom in Switzerland, there have been no major 5G-related commercial announcements in Liechtenstein as of October 2020.

Does Liechtenstein have a 5G country profile?

Moreover, important feedback has been provided to this report by the Office for Communications of Liechtenstein. The country profile was prepared as the background contribution to the ITU Regional Forum for Europe on 5G strategies, policies and implementation. All rights reserved.

Will Telecom Liechtenstein expand its 5G network in 2023?

Telecom Liechtenstein received approval to expand its 5G network the Principality of Liechtenstein in January 2023 by acquiring the rights to use frequencies through reallocation. TLI will expand its 4G/LTE network capacity and introduce 5G, the most powerful mobile communications standard currently available, to FL1 customers by mid-2023.

Which 5G bands will Liechtenstein use in 2020?

In 2020, Liechtenstein started the process of assigning the 5G frequencies in the ranges of 700 MHz, 1400 MHz and 3.5 GHz bands. The regulator has already informed that it will not use an auction, but an administrative procedure, under which the MNOs propose the optimal distribution of the available frequencies. 3410-3800 MHz (390 MHz) band.

As of 2024, Germany had the most 5G base stations among European Union (EU) member states, with over \*\*\*\*\* base stations installed.
