How to install a battery cabinet in the battery solution?

1. Perform the following steps on all battery cabinets in the battery solution. a. Remove the cover in front of the start-up button and push the start-up button. o The PSU2 LED and the POWER LED will turn on. o The ABNORMAL and ALARM LEDs should remain off. b. Reinstall the cover in front of the start-up button.

How do you reinstall a battery cabinet?

Reinstall the left side panel on the left-most battery cabinet after interconnection. Push the third battery cabinet into position, align with the seismic anchoring (if any), level the battery cabinet, and interconnect with the other battery cabinets as described in step 2, step 3, and step 5.

How do I connect a ups to a battery cabinet?

Attach a signal cable<sup>3</sup>(not provided) to the male adapter connector in the correct length to reach from the battery cabinet to the UPS. As an alternative, you can also crimp the signal cable extensions. Ensure that the crimp point is inside the battery cabinet, not in conduits or cable trays outside the battery cabinet.

How many battery cabinets can one AC/DC converter box supply?

1. One AC/DC converter box can supply up to 10 battery cabinets. For 11+ battery cabinets, at least two AC/DC converter boxes are required. 2. Install one data log kit for each battery system. Installation Procedure
