Discover how Huawei and SchneiTec have set new standards in energy storage with the first TÜV SÜD-certified grid-forming project, enhancing sustainability.

The Yancheng Low-Carbon & Smart Energy Industrial Park project, also known as the Net Zero Carbon Intelligent Campus project, a ...

Huawei's energy storage project emerges as a viable solution to this complex problem, enabling a transition to renewable energy sources. For instance, in regions ...

Featuring a 400MW solar PV system coupled with a 1.3GWh energy storage system, this ambitious project is set to revolutionize ...

The world's first intelligent grid-forming photovoltaic and energy storage power station, tailored for ultra-high altitudes, low-temperatures ...

Featuring a 400MW solar PV system coupled with a 1.3GWh energy storage system, this ambitious project is set to revolutionize sustainable energy solutions in hospitality.

The world's first intelligent grid-forming photovoltaic and energy storage power station, tailored for ultra-high altitudes, low-temperatures and weak-grid scenarios, has been ...

Central and Eastern Europe-focused renewable energy firm GoldenPeaks Capital said today it has joined forces with the Polish arm of ...

The world's first batch of grid-forming energy storage plants has passed grid-connection tests in China, a crucial step in integrating renewables into power systems.

Central and Eastern Europe-focused renewable energy firm GoldenPeaks Capital said today it has joined forces with the Polish arm of Chinese technology company Huawei to ...
