India's solar cell and module exports recorded a robust 65.2 per cent year-on-year growth in the third quarter of 2025, reaching \$344.5 million, according to a recent report by Mercom Capital. ...

A new report by SolarPower Europe, with India-specific projections contributed by the National Solar Energy Federation of India (NSEFI), projects India's solar module ...

Recently, India's Ministry of New and Renewable Energy (MNRE) announced the addition of 23,119 MW of solar module production capacity to the Approved List of Models and ...

By the middle of 2025, the solar module manufacturing capacity in India was around 120 GW, and the operational solar cell capacity was nearly 29.3 GW (IEEFA, 2025). ...

Solar power installations in India rose 60% year-on-year in fiscal year 2025, reaching roughly 24 GW. This required about 50 GW DC of modules, based on typical DC/AC ...

India added 44.2 gigawatts (GW) of solar modules and 7.5 GW of solar cell manufacturing capacity in the first half (1H) of 2025, ...

A new report by SolarPower Europe, with India-specific projections contributed by the National Solar Energy Federation of India ...

India's solar cell and module manufacturing capacity is expanding at an exponential rate. Almost all leading domestic solar equipment manufacturers--including Waaree Energies, ...

India's solar cell and module manufacturing capacity is expanding at an exponential rate. Almost all leading domestic solar ...

Solar power installations in India rose 60% year-on-year in fiscal year 2025, reaching roughly 24 GW. This required about 50 GW DC ...

Indian solar cell modules
