Is Surabaya a pilot city for energy transition in Indonesia?

Surabaya, Indonesia Sentinel -- Surabaya, the capital of East Java, has been selected as a pilot city for energy transition and efficiency efforts in Indonesia. The city officially launched its building sector decarbonization program on April 16, 2025, under the Sustainable Energy Transition in Indonesia (SETI) initiative.

Why was Surabaya chosen as a transition energy model city?

Surabaya was chosen for transition energy model city considering its considerable energy-saving potential, existing green building certification framework, rapidly growing construction sector, and the capacity of local stakeholders to manage energy transition projects.

Why is Surabaya positioned as a showcase for energy transition?

"For these reasons, Surabaya is being positioned as a showcase for energy transition and building sector efficiency through SETI. We aim to ensure its economic growth goes hand in hand with decarbonization efforts, creating a low-carbon and sustainable urban environment," she added.

Does Surabaya have a power plant?

Surabaya also has the Benowo Waste Power Plant (PSEL), which is the first of its kind in Indonesia. Irvan said that successful energy efficiency requires collaboration from all parties.
