-----

With the explosive growth of 5G and AI, the construction of data centers needs to be rapidly implemented and support flexible expansion. Currently, highly prefabricated data ...

BMarko Structures designs and manufactures custom prefabricated modular data centers built to meet the growing demands of today's edge computing, cloud infrastructure, and AI workloads.

PRESS RELEASE: ZTE Corporation has launched AIDC Prefabricated Container Solution at MWC Shanghai 2025. With the explosive growth of 5G and AI, the construction of ...

Called the AIDC Prefabricated Container Solution and launched at MWC Shanghai 2025, the container can support either 8kW air-cooled general computing cabinets, or 40kW ...

Chinese vendor ZTE has introduced a new prefabricated AI data center (AIDC) container solution, designed for rising demand for AI computing and rapid infrastructure ...

Chinese vendor ZTE has introduced a new prefabricated AI data center (AIDC) container solution, designed for rising demand for AI ...

The showcase features the newly-launched AI containerized data center solution designed for edge computing. This 20-foot container, which integrates power, cooling, and IT ...

Discover the power of container data centers: fast-deploy, scalable, portable data center containers ideal for edge computing, AI, 5G, and disaster recovery

ZTE unveils its AIDC prefabricated data center container, engineered for AI, HPC, and cloud workloads. Designed for rapid deployment, high efficiency, and sustainability, the ...

The DUG Nomad is a rugged, modular data center engineered to bring AI and high-performance computing (HPC) directly to the edge, no matter how remote or extreme the ...
