What is a solar inverter cover?

Our solar inverter covers are designed to reduce your solar inverter's exposure to sunlight and rain. This helps to extend the lifetime of your solar investment. Free standard delivery across the US on all orders. Our warehouse is based in Montclair, California and will be delivered to you by UPS or USPS services.

How much does a solar inverter cover cost?

For solar inverter covers and our universal battery cover, the postage cost is a flat \$40 across Australia for one and \$75 for two. For Tesla Powerwall covers, the postage cost is \$75 for one cover and \$115 for two covers. How can I access my inverter or battery once the cover is installed? Our inverter covers have a front panel that can be opened.

Do you need a solar inverter cover?

While inverter manufacturers advise against installing them in areas with direct sunlight, this is not always possible, and in that case, you need a solar inverter cover that will protect your equipment from rain, hail, and shine.

Does sunny cover solar inverter?

Luckily, at Sunny Covers, we have affordable and durable covers for solar inverters for all major brands, including Fronius, SunGrow and Goodwe. No matter what kind of solar setup you have, we have an inverter shade solution that will protect your investment and ensure your solar system operates without a hitch.
