Do investors underestimate the value of energy storage?

While energy storage is already being deployed to support grids across major power markets, new McKinsey analysis suggests investors often underestimate the value of energy storage in their business cases.

How does energy storage make money?

Energy storage is shifting electricity, and it makes money from buying, selling, and trading the difference between low- and high-priced hours in the market. Storage assets therefore depend on price spreads, which tend to be higher with more imbalances. Imbalances, in return, are driven by more renewables.

Is energy storage a good investment?

Imbalances, in return, are driven by more renewables. Energy storage is therefore well-positioned for an electricity market dominated by renewables and represents an interesting new asset class. It's also a potential hedge for players who already have classic renewable portfolios.

Why should you invest in battery storage in Europe?

In Europe, the capacity of renewable energy sources is growing very rapidly, while traditional power plants are slowly being decommissioned. That's creating a unique new opportunity for investors amid the emerging demand for battery storage, which provides balance to electricity markets.

In Europe, the capacity of renewable energy sources is growing very rapidly, while traditional power plants are slowly being ...

A clarification of the rules around co-locating energy storage with renewable energy. It can be beneficial to co-locate energy storage with renewable energy, however many renewable ...

The UK energy storage systems market is expected to grow significantly, with projections indicating an increase from 10.74 megawatts in 2024 to 28.24 megawatts by 2029, driven by ...

Urban centers may experience higher energy costs and greater reliance on energy storage to mitigate congestion and balance loads. Consequently, recognizing the unique ...

The remarkable progress witnessed during 2022 indicates a highly promising future for the UK energy storage market, with ...
