What is the Israeli energy storage Council?

Based at Bar-Ilan but to be run in conjunction with the Technion-Israel Institute of Technology in the northern city of Haifa, the body will oversee the development, training, and commercialization of energy storage technologies.

Are 'deep-tech-based' technology solutions the future of Israel?

(Gavriel Fiske/Times of Israel) Bar-Ilan University President Prof. Arie Zaban, an energy researcher and entrepreneur, said "deep-tech-based" technological solutions were critical for the planet's future and that the institute would "help position the State of Israel as an ecosystem in the field of climatech."

How much money does Israel spend on a new research institute?

The institute's innovative research infrastructure will serve all researchers in Israel, and its establishment is very significant news." The Energy Ministry provided NIS 100 million (\$28.4 million) for the new institute, with Bar-Ilan funding the remaining NIS 30 million (\$8.5 million).

Who inaugurated the new National Institute for energy & electrochemical storage?

Energy Minister Eli Cohen (fourth from right) helps inaugurate the new National Institute for Energy and Electrochemical Storage at Bar-Ilan University, near Tel Aviv, June 3, 2025. (Shlomi Mizrahi, Bar-Ilan University)

This installation case fully verifies the applicability of GSL Energy's high-voltage energy storage system in the Middle East's ...

This installation case fully verifies the applicability of GSL Energy's high-voltage energy storage system in the Middle East's industrial and commercial scenarios.

In this study we explore how the location and size of renewable energy sources and energy storage systems impact the frequency stability of the grid as we focus on Israel in ...

The convergence of technological excellence, entrepreneurial drive, and focus on sustainability makes Israeli energy storage innovations not just commercially promising but ...

Beyond those contributing significantly to the surge in solar PV installations, attention is now turning to novel

markets, becoming focal points for energy storage ...

With hundreds of energy-related startups already active in Israel, the institute is positioned to meet rising global demand for climate ...

Based at Bar-Ilan but to be run in conjunction with the Technion-Israel Institute of Technology in the northern city of Haifa, the body will oversee the development, training, and...

BLEnergy, by Blilious Group, is a energy storage Integrator specializing in the planning, supply, construction, and operation of energy storage systems for various needs, operating worldwide.

On January 2, 2025, GSL Energy completed the deployment of a 50kWh high voltage energy storage system with Deye three-phase inverters at a business park in Israel. As a global ...

Founded in 2017 and serving hundreds of customers across Israel, Zing Energy specializes in the trading, engineering, installation and maintenance of renewable energy ...
