To help Israel's industrial and commercial energy transition, GSL Energy and Deye have jointly created a highly efficient and flexible energy storage demonstration project.

Israeli renewable energy developer Enlight has won grid connection rights for 300 MW of battery storage capacity in a national tender, enabling the construction of systems that ...

To help Israel's industrial and commercial energy transition, GSL Energy and Deye have jointly created a highly efficient and flexible ...

"Through this strategic partnership with El-Mor, we are delivering the long-duration energy storage technology that will help stabilize Israel's grid, enhance solar integration, and ...

The convergence of technological excellence, entrepreneurial drive, and focus on sustainability makes Israeli energy storage innovations not just commercially promising but ...

SunContainer Innovations - Israel is rapidly emerging as a global leader in energy storage innovation, with cutting-edge projects transforming how the nation manages its power grid.

Under the partnership, El-Mor will design and construct battery energy storage systems (BESS) and related infrastructure for multiple projects totaling 1.5GWh capacity and ...

Sodium-based batteries for storing renewable energy cheaply and the recycling of lithium-ion batteries are among the challenges to be ...

Sodium-based batteries for storing renewable energy cheaply and the recycling of lithium-ion batteries are among the challenges to be researched at a new NIS 130 million (\$37 ...

El-Mor will design and build battery energy storage systems (BESS) and related infrastructures for multiple projects with a total capacity of 1.5GWh and total power of 300MW.
