Strata Clean Energy has signed another tolling agreement with utility Arizona Public Service (APS) for a large-scale standalone battery energy storage system (BESS) project.

WASHINGTON, D.C. -- The Biden-Harris Administration, through the U.S. Department of Energy (DOE), today announced nearly \$350 million for emerging Long-Duration Energy Storage ...

With 14 similar projects in development across the continent, Africa's energy storage capacity is projected to grow 400% by 2028. The Khartoum model proves that through hybrid storage ...

The objective of the project HA-G1048 is to maximize the use of the energy produced by the 8-MWp solar photovoltaic plant (SPP) to further reduce the use of thermal power, by ...

Molten salt energy storage has been used in the Concentrated Solar Power industry for decades, and is one of the most mature and safe technologies for high temperature heat storage. ...

Say goodbye to high energy costs and hello to smarter solutions with us. How can a mobile energy storage system help a construction site? Integrate solar, storage, and charging stations ...

The Khartoum grid energy storage policy isn't just about keeping lights on - it's a strategic leap toward energy independence. By combining cutting-edge storage tech with smart regulations, ...

That's the promise of the Khartoum Pumped Hydropower Storage (KPHS) project. As Africa's energy demands skyrocket--with Sudan alone needing 12% annual growth in ...

With 14 similar projects in the pipeline across the continent, pumped storage's proving it's not just about megawatts - it's about creating resilient energy ecosystems that outlast political cycles ...

Khartoum Solar Power Project is a shelved solar photovoltaic (PV) farm in Khartoum, Sudan.
