Does Nord Pool update price indices?

This update is mandated externally and is not within our control. For users who require different resolutions, Nord Pool has introduced normalized price indices for a set resolution. The change only applies to delivery dates after go-live date.

How much does Nord Pool data services cost?

History available since Oct 2021. Additional API account - EUR350/year/account. Nord Pool Data Services users pay a pre-determined access fee "Data Fee" charged annually to access to a given data feed. All fees are charged per calendar year and excluding VAT.

What data do we offer for the Nordics?

For the Nordics, we also offer operational data collected and optimised from the Nordic transmission system operators (TSOs). Aggregated Bidding Curves are based on bidding data from all nominated electricity market operators (NEMOs) within a bidding zone or a cluster of bidding zones.

What is EEX's Nordic power product portfolio?

EEX's Nordic power product portfolio consists of System Price futures as well as zonal futures for all Nordic bidding zones, enabling market participants to choose the most suitable tools for their hedging needs, and ultimately improving liquidity across these markets. EEX Nordic Power Futures

For users who require different resolutions, Nord Pool has introduced normalized price indices for a set resolution. The change only applies to delivery dates after go-live date.
