What is the global micro inverter market size?

The global micro inverter market size was estimated at USD 4.67 billion in 2024 and is projected to reach USD 17.34 billion by 2030, at a CAGR of 24.58% from 2025 to 2030. The market is experiencing steady growth, driven by the rising adoption of rooftop solar systems and the increasing emphasis on maximizing energy efficiency.

Who are the leading companies in the micro inverter market?

Some key players operating in the market are Enphase, Darfon Electronics Corporation, Deye Inverter, Sparq Systems, Fimer Group, Solis Solar, Tata Power Solar, and others. The following are the leading companies in the micro inverter market. These companies collectively hold the largest market share and dictate industry trends.

Why is the micro inverter market growing?

The market is experiencing steady growth, driven by the rising adoption of rooftop solar systems and the increasing emphasis on maximizing energy efficiency. North America held the largest revenue share of 37.74% in the global micro inverter market. The micro inverter market in the U.S. is experiencing strong momentum.

How much is the microinverter industry worth in 2022?

The microinverter industry was valued at USD 2.1 billion, USD 2.5 billion, and USD 2.9 billion in 2022, 2023, and 2024, respectively. Based on phase, the market is segmented into single phase and three phase categories.

Leading micro inverter industry manufacturers such as Delta Energy Systems GmbH, Enphase Energy Inc., SolarEdge Technologies Inc., and SMA Solar Technology AG focus on their ...

In 2024, with a 36.62% revenue share, North America led the world market for micro inverters. The U.S. market for micro inverters is expanding significantly. In 2024, the single-phase sector ...

Such companies as Enphase Energy, Siemens AG, and Chilicon Power are raising inverter efficiency, enabling storage-ready features, and providing module-level monitoring ...

Significant rise in demand for on-grid micro inverters due to the global shift toward renewable energy and

reduced inverter costs. North ...

In 2024, with a 36.62% revenue share, North America led the world market for micro inverters. The U.S. market for micro inverters is expanding ...

Micro inverters are in high demand due to favorable policies promoting investment in solar photovoltaic systems, such as subsidies, tax breaks, and feed-in tariffs.

The global market for Micro-Inverters was estimated at US\$4.3 Billion in 2023 and is projected to reach US\$12.5 Billion by 2030, growing at a CAGR of 16.6% from 2023 to 2030. ...

The Micro Inverter Market is expected to reach USD 4.17 billion in 2025 and grow at a CAGR of 18.23% to reach USD 10.21 billion by 2030. Enphase Energy Inc., Siemens AG, ...

The global market for Micro-Inverters was estimated at ...

North America held the largest revenue share of 37.74% in the global micro inverter market. The micro inverter market in the U.S. is experiencing strong momentum. By type, single-phase ...
