Kovatera, a leader in underground mining solutions, offers a robust lineup of battery-electric mining vehicles designed to meet the rigorous demands of ...

The TH550B is built around a substantial 354 kWh lithium-iron-phosphate (LiFePO<sub>4</sub>, or LFP) battery pack good for several hours of sustained operation under heavy load, and ...

Boliden's Jonas Rangg&#229;rd unpacks the challenges and opportunities surrounding the roll out of battery-electric vehicles underground, and debunks some common battery-related myths. ...

The implementation of battery electric vehicles (BEVs) in underground mining is relatively recent. BEVs offer several advantages over diesel machines, including enhanced ...

The robust Artisan<sup>TM</sup> battery pack uses Lithium Iron Phosphate chemistry (LiFePO<sub>4</sub>) and is purpose-designed for use in underground mining. LiFePO<sub>4</sub> withstands overcharge, ...

ABB offers a total ev charging solution from compact, high quality AC wall boxes, reliable DC fast charging stations with robust connectivity, to innovative on-demand electric bus charging ...

Kovatera, a leader in underground mining solutions, offers a robust lineup of battery-electric mining vehicles designed to meet the rigorous demands of underground environments.

Boliden's Jonas Rangg&#229;rd unpacks the challenges and opportunities surrounding the roll out of battery-electric vehicles underground, and ...

The PS13XX02-288V96Ah (96AH1P90S) TC Pack is a durable lithium-ion battery designed for EV mining trucks and construction machinery. With 288V voltage and 96Ah capacity, it ensures ...

Deploying a containerised battery storage solution is a strategic decision that transforms the energy economics of an off-grid mine. The benefits extend beyond simple ...
