How much does a polycarbonate greenhouse cost?

Keep in mind that a \$5,000 polycarbonate greenhouse with a 15-year lifespan comes out to about \$333 per year in depreciation, while a \$10,000 glass structure over 30 years also equals \$333 per year. Same annual cost, different upfront investment.

How much does a greenhouse cost?

The greenhouse's frame is usually made of galvanized pipes, which are then covered using plastic sheeting. However, the low sidewall makes it difficult to walk through and restricts plant growth. The greenhouse's costs for a Gothic arch structure vary between \$10 and \$15 per square foot. See Related: Best Portable Greenhouses to Buy Today 3.

How much does a dome greenhouse cost?

A dome greenhouse is round with a domed peak. Its round shape helps absorb heat and light. It is made using a metal or PVC frame covered with glass or plastic sheeting. One square foot costs between \$10 and \$25 to build. A spacious domed greenhouse provides enough space for plants to grow and people to walk through.

How big should a commercial greenhouse be?

A commercial greenhouse should be at least 20 feet wide and 6,000 square feet. But how much does it cost to build a commercial greenhouse? Usually, commercial greenhouse costs range between \$2 and \$30 per square foot. The bigger the greenhouse, the lower the cost per square foot.

Replacing the glass panels on greenhouse roofs, Heliene's GiPV modules allow greenhouses to run on 100% renewable energy which dramatically ...
