Discover how the Quitunda solar project will replace diesel with clean energy, transforming a Mozambique village and joining a global renewable movement.

3 solar power projects totalling 260MW in generation capacity with state-of-the-art Battery Energy Storage Systems (BESS), including the first 100MW floating solar PV project to be developed ...

Mozambique has an abundant and unexploited solar resource which could be harnessed for utility scale as well as residential PV for both on/off grid electrification. The following map shows the ...

A Mozambique Renewable Energy Atlas was published in 2014 in order to map the potential of the renewable resources in Mozambique, namely hydropower, solar, wind, ...

This info session aims to brief developers, independent power producers, financiers, and other stakeholders about upcoming solar and energy storage tenders in Mozambique under the ...

Our study focuses on a solar PV mini-grid installed in Mavumira village. Mavumira village is located in Sofala Province, Mozambique. This country is part of the 20 countries that ...

The optimised scenarios show that investments in solar and wind power, together with flexible gas engines and energy storage, offer the most cost-effective path to expand Mozambique's power ...

The Benguerra Island Project is a 400kWp, fully off-grid solar PV & BESS system installed on the remote island of Benguerra off the coast of mainland Mozambique.

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and Mozambique, as it was the first IPP to integrate a utility ...

After a long process of planning, procurement and complicated logistics, we have finally installed a sophisticated system to ...
