Nordic Solar A/S developed the largest solar park in Lithuania to date, boasting an impressive capacity of 100 MWp. This project involves the ...

Nordic Solar has acquired a 40MW ready-to-build solar park project from Helios Nordic Energy AB, making it the first large-scale scheme on the Swedish island of Gotland.

Nordic Solar A/S developed the largest solar park in Lithuania to date, boasting an impressive capacity of 100 MWp. This project involves the installation of more than 150,000 bifacial solar ...

In connection with the publication of our Half-Year Report 2024, Nordic Solar will host an online presentation at 4:00 PM this afternoon.

Utility-scale solar projects in Sweden, Finland, and Denmark are flourishing, while battery storage and AI are reshaping what's possible for grid stability and long-term power ...

Danish solar company Nordic Solar has launched construction works on its first battery energy storage system (BESS) project in Sweden, an 18-MWh site located in ...

Danish solar company Nordic Solar has launched construction works on its first battery energy storage system (BESS) project in ...

Discover the Nordic grid system's intricacies and seize solar prospects across Norway, Sweden, Denmark, and Finland in this comprehensive guide.

With a capacity of 92 MWp, this significant development is expected to connect to the Swedish electricity grid by the end of 2025, delivering an annual output of 100 GWh. This ...

Discover the strategic case for manufacturing solar modules in Estonia. Learn how specialized panels engineered for snow and low light can win the Nordic market.
