North Macedonia, which has been attracting investments in battery factories, is in talks on a project worth up to EUR 360 million, according to Prime Minister Hristijan Mickoski.

While the Skopje Energy Storage Power Station is operational, the team's already eyeing phase two--think flow batteries that could store energy for weeks instead of hours.

North Macedonia, which has been attracting investments in battery factories, is in talks on a project worth up to EUR 360 million, ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

By demonstrating the viability of large-scale battery storage, North Macedonia is helping to pave the way for a regional energy transformation.

The 2.6 MW BESS projects are just the start of battery storage in the country with YESS Power, a Turkey-based contractor, planning to commission a 60 MW BESS project in ...

Explore an expert guide on 5G regulation and law in North Macedonia, covering deployment, licensing, and future plans. Gain insights into telecommunications law now!

The 2.6 MW BESS projects are just the start of battery storage in the country with YESS Power, a Turkey-based contractor, planning to ...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

The battery storage system is expected to enhance the plant's efficiency by storing excess solar energy and
