Discover 500KW 1MW off Grid Solar Power System designed for efficient, reliable & long-term use. Ideal for commercial, industrial and individual applications.

The 500KW bi-directional PCS interfaces with the grid or existing AC sources (e.g., solar inverters, generators). Store cheap off-peak grid energy or back up critical loads during outages.

It supports grid connection / off-grid switching, enabling it to cope with emergencies such as power outages. Advantages:- Support battery capacity and discharge time prediction;

Each system is constructed in a environmentally controlled container including fire suppression. Each complete system offers users a hassle free 10+ year service life and hold internationally ...

Namkoo is a solar and ESS manufacturer specializing in energy storage systems, solar batteries and solar inverters for more than 10 years. In addition to this, we can also provide ODM and ...

Namkoo's containerized battery energy storage solution is a complete, self-contained battery solution for utility-scale energy storage. It puts batteries, A/C, UPS, inverter and auxiliary ...

Peak shaving and valley filling: by charging and storing energy at valley time and discharging energy at peak time, the electricity cost of customers can be reduced and the electricity charge ...

This system is engineered for performance and durability. With 500KW of power and a massive 2150kWh of storage, it ensures stable energy supply during peak usage or grid outages. Its all ...

The IP54-rated enclosure ensures dependable operation even in harsh environments. Consequently, with its robust features and exceptional scalability, the BESS Container 500kW ...

Peak shaving and valley filling: by charging and storing energy at valley time and discharging energy at peak time, the electricity cost of customers can ...
