Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

We offer 2-panel and 4-panel foldable solar chargers designed for outdoor use. Both feature durable materials, integrated stands, and attachment loops for easy setup in the field.

Setting up a solar charging system involves more than just plugging in a panel and leaving it in the sun. First, choose an open, sunny location free from shadows cast by trees, ...

Charging outdoor power supplies using solar energy entails selecting suitable components, correctly installing them, and maintaining the system for optimal performance.

This could power a tiny home or other small off-grid setup like a hunting cabin. For me though, I'll start with just keeping my electric tractors and motorcycles charged!

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.

The package includes everything you need: the solar panel, mountaineering buckles, cables, adapters, and a user manual. Plus, enjoy a 12-month warranty for peace of mind. Stay ...
